

**FOR IMMEDIATE RELEASE**

## **RPG Benefits and The Mang Group Combine to Become RPG Solutions**

**RALEIGH, NC - April 21, 2009** - RPG Benefits today announced that the company has combined with The Mang Group, LLC and has also completed the acquisition of Benefit Solutions Group. The newly formed company combines to become RPG Solutions, a full-service firm specializing in employee benefits and commercial insurance.

This entire transaction more than doubles RPG's benefits division and offers clients expanded resources and capabilities, including property and casualty coverage. The move also significantly strengthens the firm's large group expertise.

"We are very excited about this expansion and the substantial value it creates for our clients," said company president Phil Gruber. "We have established a full-service firm while simultaneously strengthening our employee benefits and commercial lines specialties. RPG can now meet our clients' requests to assist with additional insurance needs like workers compensation, property coverage and numerous types of liability insurance. Our growth furthers our commitment to the marketplace and allows us to maintain our strong focus on customer service and corporate accountability."

RPG's Phil Gruber remains as President and The Mang Group's John Fitzsimmons will serve as Chairman of the combined company. Management also includes Brian Fitzsimmons as Vice President of Commercial Lines and Irv Pyun, who brings over 23 years of experience in the large group market.

### **About RPG Solutions**

RPG Solutions is an insurance consulting and brokerage firm that caters to the needs of mid-sized organizations with the depth and breadth to serve companies of any size. Founded on the belief that companies should expect more from their independent insurance consultants, RPG specializes in employee benefits and commercial insurance. For more information, visit [www.rpg-solutions.com](http://www.rpg-solutions.com).

### **Special Note**

The Mang Group, LLC will legally operate as a wholly owned subsidiary of RPG Solutions.
